

Origine Premier is a range inspired by wood veneer, designed for the furniture and interior decoration markets: hotels, shops and restaurants.

An ideal alternative to real wood, it combines respect for the environment, with aesthetics and ease of use. The wood decors are rendered beautifully by the workmanship of the finishes with each decor being brought to life through its accompanying surface finish.

5 surface finishes

EM With a matt appearance offering a coarse, rough feel, it combines the look of veneer with the durability of HPL. It instils the wood decors with the spirit of once living materials and enhances the aged, raw aspect of the bleached wood.

EPIMAT It has a raised pattern with a sanded wood effect and straight lines, making it easy to work with. Matt and rough, it is perfectly suited to wood decors as it emphasises the hard and soft grains, thereby enhancing the authentic, natural aspect of the product. Also available in Panoprey, melamine faced boards.

GRAIN A subtle and elegant fine grain, just what is needed to combine the idea of the material and the wood grain. A slightly rough texture for a finish that's perfectly suited to classic grained wood decors such as Washed Oak or Venetian Walnut.

BRIHG A highly polished, luxurious effect reminiscent of 1930s varnished wood which adds a unique touch of sophistication to dark woods such as Ebony, Pecan or Darkened Banyan.

BATI A painted wood effect that's both rustic and sophisticated, authentic and simple, with the wild beauty of freshly sawn pine planks.

Innovating the touch of Nature

↑ Vertical use only.
EPIMAT and BATI are recommended for vertical use only.

> Finish it all off beautifully: all product lines in the Origine Premier range are available in ABS edging strips, structured finishes have been developed in partnership with Rehau to offer greater creative flexibility

A highly innovative and environmentally friendly range

Take home a wood range that is environmentally friendly and free from nature's limitations.

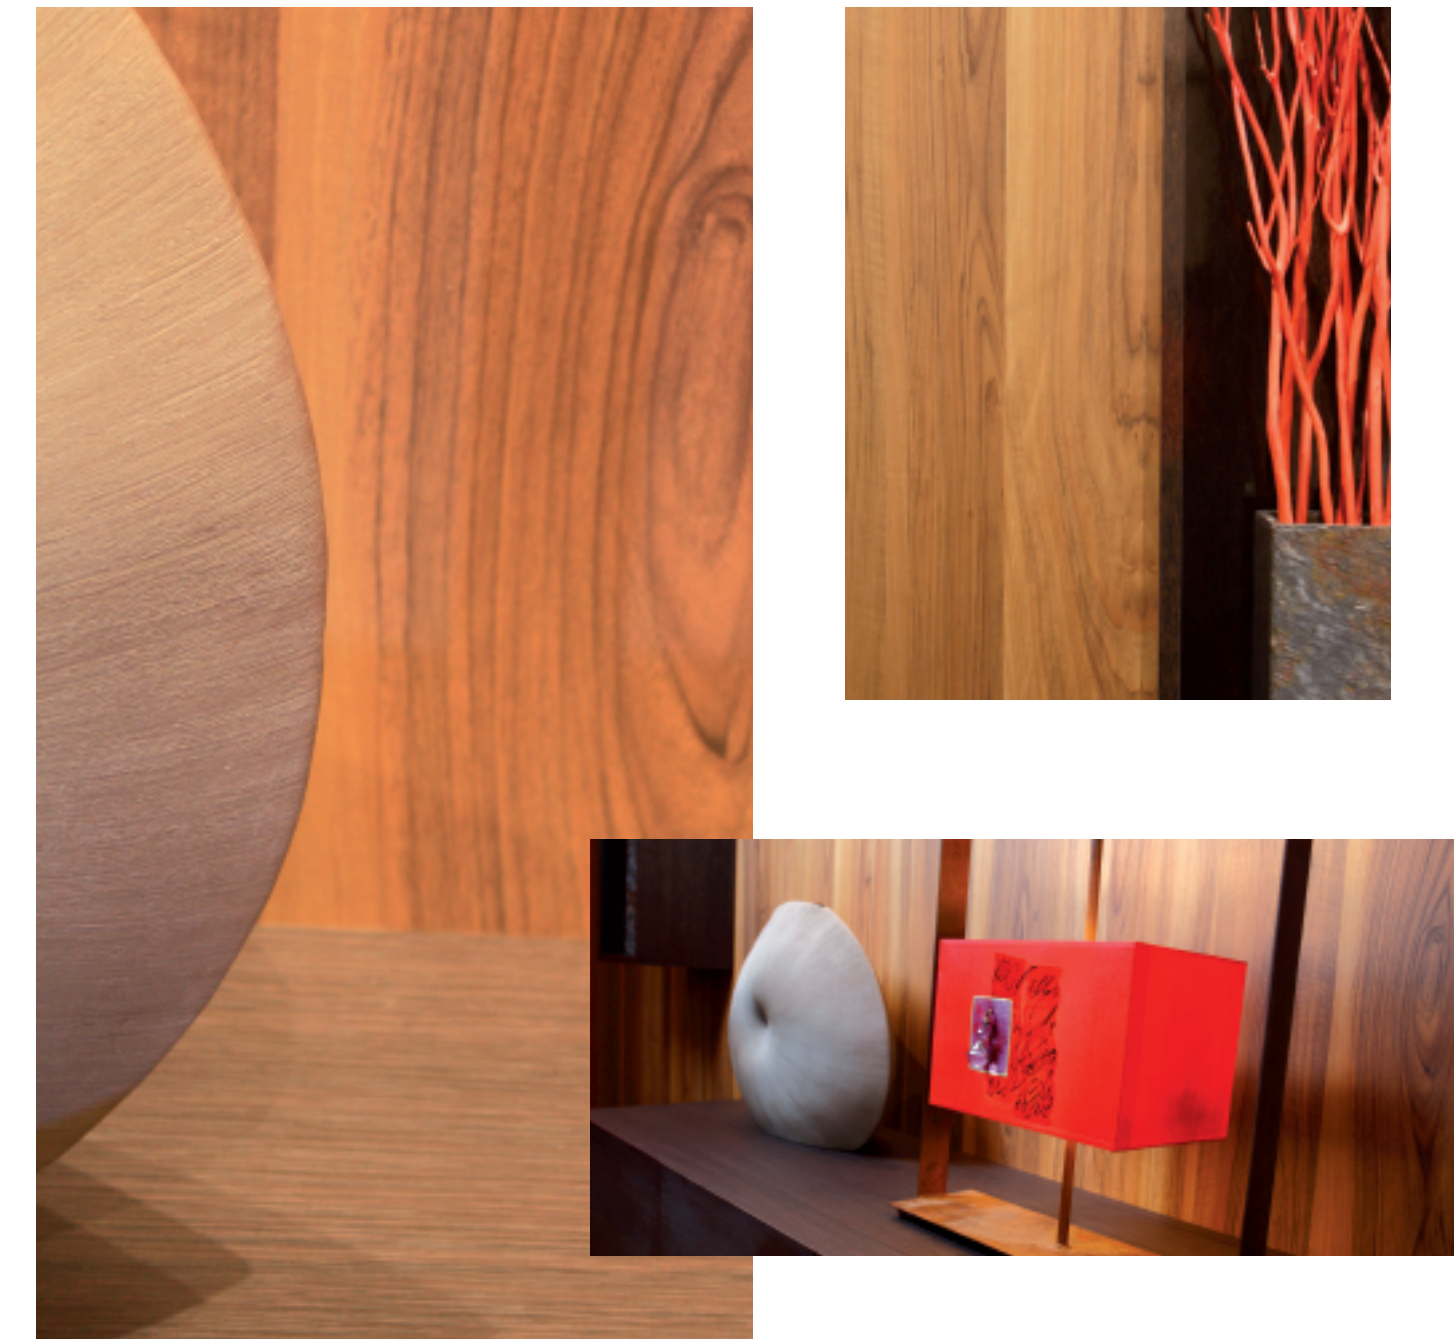

Laminate does not contribute to the disappearance of rare tree species while bringing you a broad range of authentic looking wood decors. Origine Premier symbolises a further step in Polyrey's ongoing commitment to environmental protection: PEFC certification for panel products on request, implementation of an FSC chain of custody for the HPL, ISO 14001 certification for our two production sites.

Imagine a look that's more authentic than nature itself.

The Origine Premier range benefits from the latest technological advancements in printing. The exceptional reproduction quality of the decors combined with a matching surface finish adds detail to the wood effect, creating an aesthetic quality that's close to perfection.

Enjoy the beauty of wood without breaking the bank.

The Origine Premier range is available in HPL, Panoprey and Polyrey, the winning trio to ensure your projects are completed on time and on budget.
